

MAF DEMURRAGE MANAGEMENT SUITE

Easily manage physical trades and shipping logistics where demurrage and/or other claims are incurred. With MAF Cloud's cloud-enabled solutions, the Claims team can effectively track and manage timebar deadlines, and demurrage operations can become more efficient, transparent, and accurate. This provides you with the freedom to focus more on your negotiations and timely settlement of receivables with your counterparties and/or ship owners.

FEATURES & BENEFITS

Calculate Automatically

Perform calculations automatically for all demurrage cases, including escalation and cargo proration etc. This enhances accuracy and reduces time spent on performing tedious calculations.

Generate Reports Easily

Download detailed demurrage reports based on your inputs systematically. This ensures the standardisation of documents and enhances communication with relevant parties effectively.

Offset Claims Effortlessly

Generate your demurrage claims offset list without any data processing, with a single click! This allows for monitoring of net claims with counterparties and prevents any outstanding receivable claims from being missed out.

Share Data Directly

Share demurrage and other claims data directly among parties such as brokers and counterparties via the MAFLink function. This reduces data entry workload and improves operational efficiency significantly.

Upload Data Seamlessly

Upload your demurrage and other claims data directly and securely into MAF Cloud for use and download the data easily. This reduces data oversight and ensures accuracy of data.

Stored Files Conveniently

Access and store files for each claim directly and securely with MAFSpace. This eliminates the need for separate external storage and enhances collaboration and convenience.

Manage Data Efficiently

Add, edit, delete, duplicate and keep track of all demurrage claims and calculations. This keeps data updated at all times and allows statistical tasks to be performed easily.

Integrate via API Securely

Integrate our Demurrage features into your in-house systems via MAF RESTful API securely. This ensures that you can fully benefit from our comprehensive Demurrage features while resuming usage of your current systems.

OUR CLIENTS' TESTIMONIALS

"With MAF Demurrage Management Suite, I can easily create, manipulate, and store all my claim records and calculations in one place. I can even share the information with my colleagues! Work efficiency is greatly improved."

Claims Analyst from one of the biggest Energy Trading Houses

"MAF Demurrage Management Suite increases my job efficiency in managing demurrage claims and helps to eliminate most of the human errors in demurrage calculations. Besides, it also provides email notification function which helps users to keep track and remind them of all the claims which are going to be due soon."

Operations Executive from an Oil Refinery Company
